FOR RADHIKA

What would help *most* next

Fix shipping outside Norway

Her checkout returns no shipping options for Denmark, Sweden, Germany, France, the UK or the US, although the policies promise UPS delivery. Check Shopify → Settings → Shipping and delivery.

Plan one photo shoot

Product photos are at most 800 px and vary in style. One consistent shoot (on-body and flat, with fabric close-ups) would lift version 3 more than any code.

Collect reviews

Add a reviews app and show ratings once real reviews exist.

Check payment options

The terms page names PayPal. Norwegian shoppers expect Vipps and Klarna.

Add a Norwegian version

Most customers are in Norway; a Norwegian-language site would help search and trust.

Decide on exchanges

Free size exchanges would remove the last worry about buying the wrong size.
